Not All Hemp Oil Is Created Equal

If you're like many Americans, you've heard of CBD. However, did you know CBD is only one of a handful of powerful cannabinoids? To get the maximum from this amazing plant, Zilis uses full spectrum hemp oil. Our 7 Hemp CBD Oil contains over 400 naturally occurring, biological compounds. In fact, modern scientists have been studying this plant since the 1940s and industrial hemp has been used since ancient times for a wide range of products. This includes paper, rope, paint, soap, clothing, as well as oils and topical ointments.

CBD vs. Full Spectrum: What's the difference?

Cannabidiol (CBD) is a cannabinoid. The health benefits of CBD have been known for thousands of years. However, just taking CBD is not enough. If you desire the total range of health benefits nature's perfect plant provides you must use it in the most natural state. 7 Hemp CBD Oil available from Zilis is full spectrum. Our oil contains a variety of powerful compounds, each with the potential to positively impact your health. This list includes cannabinoids, flavonoids, terpenes, vitamins, minerals and omega fatty acids.

Cannabinoids, like CBD, regulate the endocannabinoid system (ECS), The ECS is responsible for important functions such as sleep, relaxation, inflammatory responses and cognitive ability. Our bodies have two types of cannabinoid receptors, CB1 and CB2, most abundant in the brain and the immune system, respectively. The ingredients in "7" interact with the body's naturally occurring cannabinoid receptors to aid with relief and enhance our feelings of calm and well-being.

Purzorb™ Technology

As we all know, oil and water don't mix. Its a widely known fact that oil-based supplements are poorly absorbed by the body. Through a unique "mycell" technology, our Purzorb™ technology makes the oil-based ingredients in 7 Hemp CBD Oil water-soluble. The result is extraordinary, boosting absorption more than 10X that of an unrefined oil. The result is significantly superior bio-availability and a more rapid onset of action.

Our full spectrum hemp oil contains over 400 biological compounds:

- Cannabinoids
- Flavonoids
- Terpenes
- Vitamins
- Minerals
- Omega Fatty Acids
- All in a water soluble, delicious blend
